PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Java, Spring Boot, Python, and MySQL. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and RESTful API development. Experienced in building secure backend applications using Spring Boot and scalable database solutions. Passionate about solving complex algorithmic problems and developing high-quality software systems..

TECHNICAL SKILLS

- **Programming Languages:** Java, Python
- **Computer Science Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Complexity Analysis
- **Frameworks & Technologies:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT
- **Databases:** MySQL
- **Tools & Concepts:** GitHub, VS Code, Eclipse, Figma, AI/ML, REST APIs, MVC Architecture, CRUD Operations, Exception Handling, Collections Framework, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Intern | *Airports Authority of India, Chennai* Dec 2025 – Jan 2026

- Developed backend components for the Requisition & Asset Inventory System for Employees project.
- Integrated database functionalities to ensure efficient asset tracking and management.
- Worked closely with the IT department to gain hands-on experience in full stack development workflows.
- Collaborated with cross-functional teams following software development lifecycle (SDLC) practices.

Python Full Stack Intern | *Approtech R&D Solutions* June 2025

- Developed a Wildfire Impact Prediction application using Python, Flask, and XGBoost to analyze historical wildfire datasets.
- Processed and analyzed CSV datasets to improve prediction accuracy and automate reporting workflows.
- Integrated SMTP-based email notifications for automated alert generation.
- Built backend functionalities following RESTful application development practices.

PROJECTS

ShopHub – Full Stack E-Commerce Web Application

- Designed and developed a scalable full-stack e-commerce application using Java, Spring Boot, React.js, and MySQL.
- Built secure REST APIs supporting product management, authentication, and order processing.
- Implemented JWT-based authentication and role-based authorization using Spring Security.
- Optimized database operations using Spring Data JPA and Hibernate.
- Followed layered architecture and object-oriented design principles for maintainable software.
- **Technologies:** Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL, REST APIs, React.js, Maven

Car Parking Management System

- Developed a full-stack parking management application using Java, Spring Boot, and MySQL.
- Designed REST APIs for vehicle registration, parking allocation, slot management, and reporting.
- Implemented CRUD operations using Spring Data JPA and Hibernate.
- Applied object-oriented programming principles to build modular and reusable backend components.
- **Technologies:** Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs, Maven

LEADERSHIP & VOLUNTEERING

Captain of the Kabaddi Team

- Led the department team in various intra-college tournaments and sports events.

UBA Volunteer

- Participated in awareness campaigns and village survey activities with the team.

EDUCATION

Sri Sairam Institute of Technology, Chennai **2023 – 2027**
B.E. Computer Science and Engineering CGPA: 8.46

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:**
  - Java Full Stack Development – Infosys SpringBoard
  - MySQL Database Development – Udemy
- **Paper Presentation:** Won 2nd Prize at St. Joseph's College, Chennai.
